

HydroClean™

Indoor Ultra Pure Water Cleaning System

IPC Eagle

State of the Art Indoor Cleaning Tool

The **HydroClean™** indoor ultra pure water cleaning system is for indoor glass and non-porous surfaces. It combines the cleaning power of pure water and microfiber in a light, compact and entirely mechanical tool (no cords, no batteries, etc). It keeps glass cleaner longer. With no chemical residue being left behind on the glass dirt will not be attracted reducing the frequency of cleaning intervals. Fill with pure water from our Hydro Bottle Kit or distilled water.

The **HydroClean™** is offered in four models; Cleano 5, Cleano 10, HC 25 and HC Quick Lock.

- Reduces labor up to 50%
- Reduces back strain - ergonomic
- Allows safe working from the ground
- Reaches difficult areas without dripping on or having to move furniture
- Environmentally friendly, no chemicals
- Economical, eliminates chemical costs

Light weight

- The poles are made of anodized aluminum
- Only 2 lbs
- Extension click-lock system

Versatility

- Available in four models allowing you to reach the shortest or tallest of jobs

No-twist mechanism

- A special no-twist mechanism on the extension keeps the tool aligned, avoiding the need to twist the wrist

Pump unit

- The mechanical pump is operated by hand
- No electricity saving money and adding convenience
- Tested over 1 million strokes as a guarantee of efficiency and long life

Micro-spray

- Micro-spray technology guarantees optimal distribution of the right amount of pure water on the surface.
- easy replacement of nozzles
 - ease of use due to non-drip system

HydroClean™

Indoor Ultra Pure Water Cleaning System

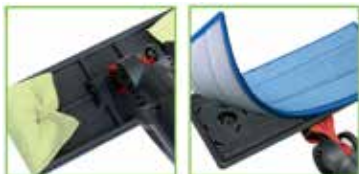

Endless Cleaning Possibilities

- Indoor glass, windows and walls
- Washable furniture
- Washable tables and desks
- Counters and work benches
- Washable doors and walls
- Elevator walls and doors
- Glass refrigerator doors
- Indoor window sills
- Glass partitions, show-cases and mirrors

HydroClean™ Pad

The HydroClean™ Pad is made of polyester and polyamide microfiber. Its special composition makes it ideal for spray cleaning. Designed to remove dirt with a minimal amount of pure water.

Pad holder clip-on

The pad is easily applied. The efficient clip-on system keeps the pad taut and makes sure it is adhered closely to the surface for easy cleaning.

HydroClean™ Tank

The HydroClean™ Tank is designed for heavy use and is resistant to impact and stress. It can easily be refilled at any time due to a ball valve at the end of the tank to keep pure water from leaking. It also allows you to deliver water evenly from any angle.

Swivel System

The HydroClean™ has a horizontal swivel for getting into tight corners and cracks, vertical swivel for corners and cracks, vertical swivel

for corners and steps up to 90 degrees. With this rotation system the user can avoid stress or unsafe positions allowing for safer yet efficient cleaning.

HydroClean™

Indoor Ultra Pure Water Cleaning System

No matter the job, we've got you covered.

The HydroClean™ comes in four sizes giving you the versatility to clean almost anything you'll encounter.

HC 25

Using our 25' Carbon Fiber Composite Flip Lock Telescopic Pole you can reach up to 30'.

HC Quick Lock

Available as-is or in kit form for those who already have our Quick Lock Water Fed Poles. They are made of high grade carbon fiber and reach from 5' up to 55'.

Cleano 10

Perfect for those out of reach surfaces. Cleaning up to 15' it's quick and easy to use.

Cleano 5

Small enough for everyday cleaning but still reaching up to 10' this versatile model is the perfect everyday indoor ultra pure water cleaning system.
